Sew Confident! 2018

Year of the Wardrobe

I've thought a lot about what clothes I actually put on most days in order to be comfortable and look good. If you are like me, you operate out of the same 18" of the front of your closet. So we are tackling this issue of what we really want to wear and what that means for our sewing ritual. *Sew Confident! 2018* is a complete presentation of tutorials, patterns, and fabrics, assembled in a thoughtful approach for a system of dressing. No more sewing random pieces. This is the year of sewing the basics, and then adding pieces until by the end of the year, you have multiple options of how to wear 12 or more pieces in multiple ways, in flattering colors for you.

I have carefully selected these styles. These are the clothes that I want to wear. Once I make a few basics, then I can express my personality and have some fun by trying new things. Those mornings of wondering what to wear will be simplified and perhaps even contained in the same 18".

I hope you will join us for a year of fun and surprises.
