You will need a sewing machine that has been cleaned and oiled and is in good condition. If your machine also embroiders and has a 9mm throat plate, you may want to invest in a 5mm-wide throat plate. We recommend a serger for seam finishes.

ORDER OF CONSTRUCTION

1. Refer to your **Materials List** and gather the correct materials
2. Refer to **Mitered Tamari Apron Addendum** to create a Mitered Tamari Apron
3. Once you've completed the Addendum, refer to pages 3-7 of the **Tamari Apron PDF or Printed Pattern Instructions**
4. To wear, place the LONG tie over the LEFT shoulder. Reach for the end of this tie with your right hand and insert through the loop that is on the right hand side. Then connect this end to the SHORT tie on the left and tie a bow.

Please Note:

This is a one-size-fits-all pattern. When worn, one corner hangs about 6" from the floor. If you are short, you may want to make the main Apron piece smaller.
